

Today, seven Soling One Meters took to the water in light wind and sailed 10 races. Four different skippers won races. When it was all over Russ and Jerry were tied on points but Jerry had a 6th and Russ had a 5th for their throwouts. That caused Jerry to win by 1/9th of a point. With his good scores today, Russ has moved into contention for the top spot in the Thursday Summer Series. There is one more week in that Series before we start the Thursday Fall Series. Scores are attached!

Don't forget the One Day S1M Regatta at 1:00 PM on the Dayton pond on Saturday. They don't have a weed problem.

Next Tuesday is a Practice night. Don, do you think we could weigh boats that night? We haven't done that this year. I received my letter of approval as a Volunteer at the VOA Park. I'm not sure what that entitles me to do but I hope it lets me use the pontoon boat to take out weeds. The Park tried the heavy bar and indicated it worked well. The load on the bar became very heavy and the broke some of the tines welded to the ribar. We'll try the bar, a heavy chain and some other things to get rid of some weeds. I'll need some help, but I haven't decided when that will be.
